He has a great experience in construction field since 1993 and completed many projects more than million square meter specialized in Tunnel Form system in USA, Australia, Russia, Africa and Turkey.

HI-TEK TEAM

Quality is our most concern with economy and construction speed

Hi-Tek Construction Industry & Trading Co. Ltd. was established in Turkey in 2007. The owner and president of the company, Mr. Hasan SACAN, has a bachelors degree in Civil Engineering and graduated from Middle East Technical University (METU) in 1993. After 10 years of experience with MESA Imalat Formwork Manufacturing Company in Turkey plus 4 years of experience with Highrise Concrete Systems, Inc. in Dallas, Texas, USA in the construction of residential and commercial buildings around the world with the latest technology, he founded Hi-Tek Construction Company to provide **“premium service around the world”** through consulting and/or working as a contractor to do concrete shell structure specialized in Tunnel Formwork System.

Hi-Tek Construction believes that adding value engineering into the projects using tunnel formwork system reduces the cost of building and increases the quality and efficiency. Our company has been busy since day one and continues to provide the utmost in client satisfaction through our **“high-tech”** quality of work and by incorporating value engineering into their projects.

Hi-Tek Construction is the first company in Australia to integrate the tunnel formwork system into the residential projects. The system has been used for the first time in Australia on a 25-storey high-rise condominium project. Hi-Tek Construction provided all the data for acceptance of the system and worked as a contractor to do concrete shell structure with experienced Turkish crew including form setters and steel fixers. The project has been completed succesfully ahead of schedule safe and sound with a high quality of finishing which reduced the cost of building significantly. Other projects followed with the same system as the client was satisfied with the great results.

Hi-Tek Construction has also service agreement contract with MESA Imalat Formwork Manufacturing Company (which is the pioneer formwork manufacturing company in the world) to provide consulting works and/or after sales service around the world for their clients.

Hi-Tek Construction is a worldwide contractor and can handle all your needs you expect for today and tomorrow anywhere in the world.
